Janmashtami is celebrated as the birthday of Lord Krishna, one of the most powerful and famous reincarnations of Lord Vishnu. According to the Hindu calendar, this festival is celebrated on the Ashtami of Krishna Paksh or the 8th day of the dark fortnight in the month of Bhadon. This day indicated the beginning of hope in the older times; hope, that the malicious rule of Kansa would soon end.

To seek the blessings of Lord Krishna, Janmashtami was celebrated at Jagadambha College of Engineering & technology Yavatmal on 30th August, 2021 with mirth and joy. The fragrance of flowers, soothing aroma of camphor and the jingle of bells filled the air. While this religious importance is not lost, this day signifies a lot more too modern India; it signifies excitement, euphoria and a joyous spirit of enthrallment. To celebrate the extraordinary bond between children and the Almighty, The JCOET took the opportunity to both jubilate and learn with the young minds. The premise was decorated beautifully and the spirit of festivity was enhanced with Jhankis depicting life history of Lord Krishna. The celebration that followed was truly entertaining and educating.

The Principal of the college, Dr. H. M. Baradkar blessed all on this auspicious day and gave them the message as always, looking ahead instead of reminiscing in the past. His words truly summed up the efficacy of celebrating festivals of devotion and obedience towards all.

The program ended with a vote of thanks by Prof. Priyanka Kadam Mam where she thanked all the students and teachers for their support in making the Janmashtami celebration a grand success.

3. Time	Sharp at 11:30 AM
4. Venue	At your own premises
5. Guest	Dr. V. L. Bhambere Sir (IQAC Co-ordinator)
6. Participant	180 students and more.

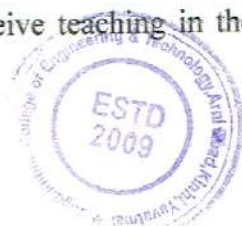

Jagadambha College of Engineering & Technology Yavatmal was organised "Online Interactive Session" for newly admitted students of first year and direct second year about values of an inclusive environment and the role of cross cultural communication on 22nd February 2021 with staffs & students due to the pandemic situation.

Dr. H. M. Baradkar, Principal Jagadambha College of Engineering welcomed all the fresh students who were admitted to Jagadambha College of Engineering for the academic year 2020-2021, Principal also welcomed Parents, Deans, HoD's, and all the staff's on this occasion. Further principal briefed the students about the college facilities, infrastructure, and the organizational structure and organizational hierarchy.

The objective of the program was to demystify the expectation of the students from the Intermediate level and to provide an adequate foundation in the Engineering Which is limited to a moderate level so that students do not face any problems when the regular class commences.

The student interaction was planned to keep in view the overall personality development which includes soft skills, sports, and Cultural Activities. The duration of the program was one hrs. The students were given insights about Universal Human Values apart from other co-curricular and extra-curricular activities. During this program, the students will come out of their hesitation and it will be the best platform for the students to interact with the faculty members and to build strong relationships with them.

Dr. V. L. Bhambere Sir (IQAC Co-ordinator) the guest of the program was addressed the students about an inclusive learning environment where students of every ability level receive teaching in the same place. This means that particularly able students

Technology, Arni Road, Kinhi, Yavatmal

learn alongside those who have special educational needs, such as attention deficit disorder. Teachers differentiate between students of different abilities by giving those tasks of varying difficulty and complexity. A single activity may pose different levels of challenge and have different outcomes depending on the student, or a teacher may give a different task to each student, according to his ability.

He was also addressed the students about the cross cultural communication. The cross culture communication to understand and review the issues in a positive and negative aspects and impacts on business environment (international import and export trade) and users.

Cross cultural communication is an important asset for the company because in an organization, there are people who possess different styles and they have different cup of coffees. Cross cultural communication has to be provided by the organization to increase its efficiency and if there will be an efficiency, the level of effectiveness will certainly occur time to time. This will increase the growth and the objectives of the company. Managers and leaders should possess communication in a precise and in a proficient way. To succeed in the life of business and to create a global environment in a work place, one should be well enough and well managed in their communication part as this is the strongest and the first level to move to the ladder of success.

A total of 391 participants including Staff & students and parents benefitted from this program. The program was concluded with a valedictory session by Prof. P. S. Wankhade Sir, Assistant Professor Electrical Engineering department proposed the Vote of Thanks and thanked the Management, Principal, Deans, HODs and students and all those who contributed to the success of the interaction program.

1. Title of Activity	Online Social Awareness Program-2021
2. Date of Activity	30 th May 2021
3. Time	Sharp at 10:30 AM
4. Venue	At your own premises
5. Guest	Shri. Rajesh Burange Sir (NSS Director SGBAU Amravati)
6. Participant	391 and more.

Jagadambha College of Engineering & Technology Yavatmal has organised "Online Social Awareness Program" on 30th May 2021 with staffs & students due to the pandemic situation.

Objectives

- To encourage students to exhibit their knowledge, presentation skills and innovative ideas.
- To create social and environmental awareness among students.
- To understand the different processes that destroys ozone in the Earth's atmosphere.
- To develop an understanding of the global trend towards ozone depletion, recovery and enlighten how citizens can help to reduce ozone depletion.

The program started at 10:30 am with an invocation by Prof. D. B. Pohare Mam which was followed by a welcome address by Dr. H. M. Baradkar Sir virtually. Dr. Shital Watile Sir Secretary of JCOET yavatmal and all the Heads of the department were present virtually over there. The guest Rajesh Burange Sir (NSS Director SGBAU Amravati) highlighted the methods of waste and excreta disposal. He focused on "Swacha Bharat Shresht Bharat.

As we all know due to corona virus there is lockdown and we all are locked in a room. Hence at this time our team decided to make this time as productive time by involving some creative activities. On 22-04-20, Honourable PM Shree Narendra Modi announced lockdown to fight against corona. Janta curfew was also announced for the same cause. We decided to spread awareness by making poster and sharing it with affective caption via social media platforms. Poster includes points like how we can maintain distance from others and safe us to save our nation.

Technology, Arni Road, Kinhi, Yavatmal

The program was going with address by Rajesh Burange Sir (NSS Director SGBAU Amravati). He stressed on importance of ozone layer in the stratosphere where it forms a protective layer that shields us from harmful ultraviolet rays. Human activity has depleted this ozone layer and caused "holes" in ozone layer. He stressed on saving the ozone layer and said one should take preventive measures for saving the environment, stop using the products which are harmful for the environment, if our environment is safe, only then we are safe. Safe environment will lead to safer lives.

After Rajesh Burange Sir's speech, felicitation of judge virtually, Prof. S. D. Kale was performed. A video clip showing "Ozone Awareness" is played. Dr. H. M. Baradkar Principal JCOET Yavatmal was delivered speech on importance of Ozone in environment. He explained how Ozone gas protects everything living on the Earth from harmful ultraviolet (UV) rays from the Sun. Further He extended without the layer of ozone in the atmosphere, it would be very difficult for anything to survive on the surface and plants cannot live and grow in heavy ultraviolet radiation, nor can the plankton that serve as food for most of the ocean life. The ozone layer acts as a shield to absorb the UV rays, and keep them from doing damage at the Earth's surface.

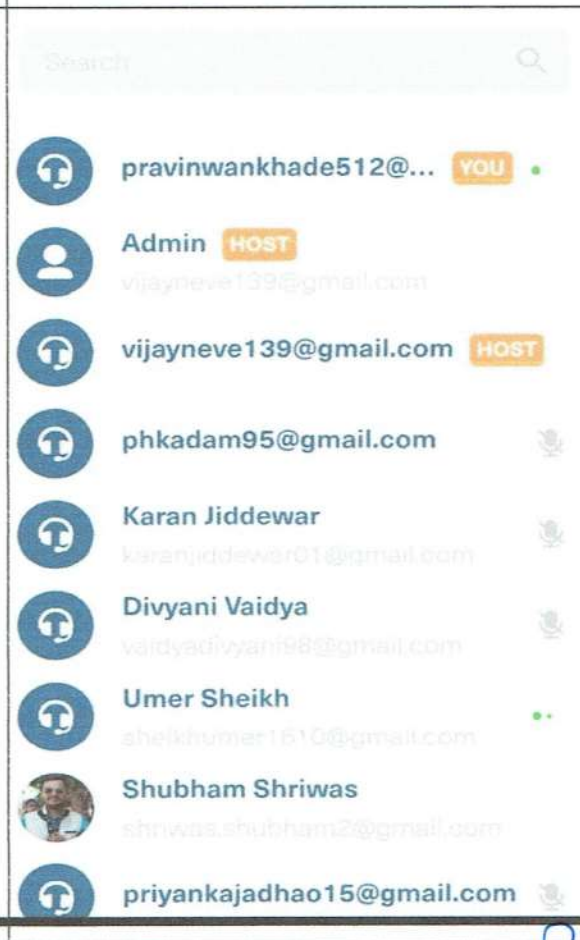

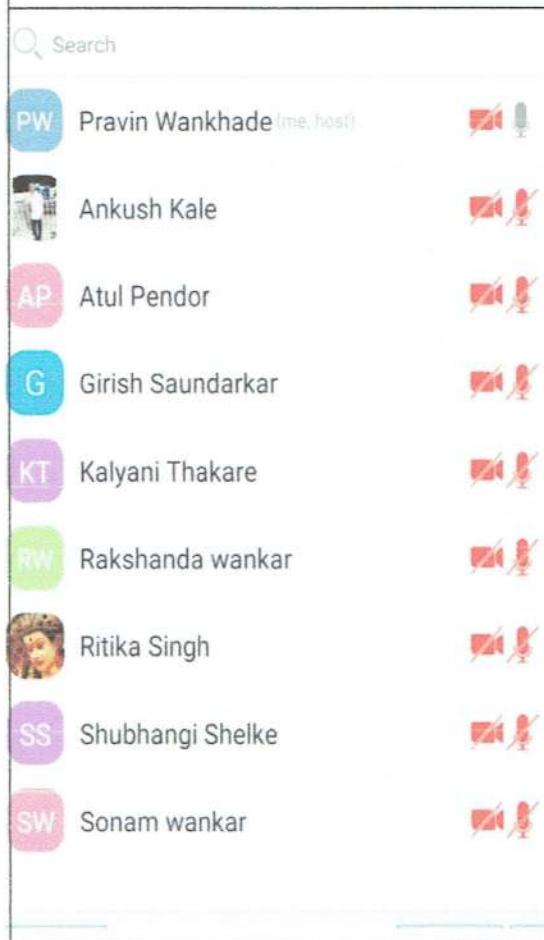

A total of 391 participants including Staff & students and parents benefitted from this program. The program concluded with a vote of thanks by Prof. P. S. Wankhade Sir.
