Annual Report on
E-Governance
Academic Year- 2020-21

For further strengthen this practice following changes or upgradations are made to the established system in year 2017-18.

1. Due to COVID-19 pandemic guidelines all the systems were gone online for this Academic Year 2020-21 following changes were made for smooth conduction of academic process to follow COVID prevention protocol.
 - Students fees collection are done through Online Money Transfer, UPI (Unified Payment Interface), IMPS, Netbanking etc. to avoid physical contact.
 - All the account details were shared on the whatsapp group of all classes.
 - Google form is used for data collection.
 - Google form is used for Admission to 2nd, 3rd and final year.
 - Google form is used for conduction of internal examination.
 - Google Classrooms is used for learning management.
 - Teachmint, Google meet, Webex Meet, Zoom Meeting, etc online platform is used to online teaching.
 - No students were called physically to college for any of the purpose.
 - Other possible changes for successful e-governance are done time to time as per convenience of staff and students.

Annual Report On

E-Governance

Academic Year- 2017-18

Jagadambha College of Engineering Internal Quality Assurance Cell (IQAC) drafted policy for implementation of E-Governance in various administration and academic activities of the college from the academic year 2017-18 to accelerate college functioning and development in terms of speed, efficiency and reliability.

Implementation of E-governance in areas of operation:-

It has been decided to automate all the various operation of the instructions in an integrated manner in order to enable transparency clarity in different functionalities of the instructions pertaining to teaching learning (Academic), Administration, Examinations, Finance and accounting, Admissions and HR wings, Training and Placement activities.

Academic & Examination

To increase the speed of sharing the information and data the Institution has formed the Whatsapp groups for each class, keeping in mind the popularity of whatsapp application amongst the student.

This made easy to communicate with the students and transferring information regarding day to day activities, notices, class notes, time table of examination, assignments, information regarding the different notification received from university, extra class schedule, training and placement activity etc.

The administrator of this group who is the in-charge of the particular class monitor all the activity and maintain the decorum of this group. He looks after adding the students and related teaching staff in the group.

In addition to this staff members are instructed to use the Google Class Room as a tool for enhancing the ease of teaching learning process.

Administration:

College Management System (CMS) aims at immediate availability of data in required formats that ease the work of staff and management and increase in transparency and accountability in administration.

For this purpose we use ERP software College Management System (CMS) from Biyani Technologies, Pvt. Ltd.

Accounts:

Tally software is being used for maintaining Finance & Accounts. Appropriate security measures should be taken for maintaining confidentiality of the transactions. Training to the existing staff and updation of the existing softwares must be done on timely basis. Office shall continue with Tally solutions for Finance management.

Website:

The website of the college needs to be revamped taking into account the new changes. The website should act as a mirror of the college activities. Information about all activities, important notices, etc should be made easily available to the outsiders. For this purpose, a separate service provider/web designer can be identified in supervision of H.O.D. Computer Engineering Department. Along with it, training should be given to the existing staff who will undertake the responsibility of website administration and updation at the college level. The college website updations and maintenance services are continued with Lastmile Innovation, Nagpur.

The E-Governance report for the academic year 2017-18 is submitted to the Governing Council. The Governing Council has verified and accepted the report.

E- Governance Policy

E-governance is the integration of Information and Communication Technology (ICT) in all the working processes of the system. It aims to minimize the manual efforts and improve the communication, create transparent system, and to be cost and time effective.

1.Planning and Development

The institute uses ICT in the process the planning of college-events, activities and academics through personal e-mails and Whatsapp. The college uses College Management System ERP software for planning and developing Lesson plan, Individual student performance and students feedback. Important notices, reports and communication are also circulated via e-mails and Whatsapp to the faculty as well as students. To achieve the target of paperless communication and processes, it has started using Google facilities like Google Form, Google Sheet and Google Drive.

2. Administration

The Administration of the College functions with E-governance system at College level. The college uses the modules like student attendance, library, transport, hostel and stock & inventory of Impress ERP software for administrative purposes. The college campus is equipped with CCTV Cameras installed at various places of need. College staff members use smartphones with inbuilt social app like Whatsapp and Gmail to communicate. WhatsApp Group helps to provide brief notices of any event to be happened in college.

3.Finance and Accounts

The college uses the Tally ERP 9 Gold software for E-governance of transparent functioning of Finance and Accounts department of the college. This helps to increase the efficiency of staff towards the accuracy in financial transactions. The administrative office maintains the reports and books of accounts generated from the software which helps in auditing procedure.

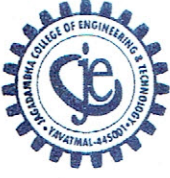

4. Student Admission and Support

The student admission process executes two different modes, one is government quota and another one is management quota. The government quota students are directly using the Directorate of Technical Education (DoTE) website in smart window counselling method.

Principal

Dr. Shital A. Watile

M.Sc., Ph.D.

Secretary

On the other side management quota students are using college website and College Management System ERP software for admission purposes.

5. Examination

The College has the separate Examination cell equipped with ICTtools necessary for examination purpose. As per the requirement of Examination cell, all the necessary equipment are provided by the college such as separate desktop, internet facility for paper downloading and further activities of exam purpose. In the university exam the entire process is carried out on Affiliating University web portal and the internal exam activities are also carried out by Learning Spiral ERP software.

Dr. Hemant M. Baradkar
